Print Costs

U.S. Cost Per Page

The tables below list the cost per page* (CPP) for Xerox office printers.

Many competitors publish cost-per-page values based ONLY on print cartridge or ink use rather than on all consumables. Xerox lists both sets of costs so that you can accurately compare products.

	Print Cartridge or Ink Only ¹		All Consumables ²	
Color Printers	5% Black	20% CMYK	5% Black	20% CMYK
Phaser® 6125	3.2¢	19.1¢	3.2¢	19.1¢

¹ Costs are based on web price; published yields; and print cartridge, ink, or print cartridge equivalents (toner cartridge plus imaging unit). These values are more accurate for low-volume users who may never need to replace any long-life consumables, such as fusers, transfer belts or maintenance kits.

² Costs are based on web price, published yields, and all printer consumables (may include fusers, transfer belts or maintenance kits). These values are more accurate for high-volume users who may need to replace long-life consumables. Actual costs can approach but never reach the values listed.
