Alaris S2050/S2070 Scanners

Information capture at the point of entry

Robust desktop information capture,
delivered direct to your business processes

Simple information capture to streamline your process

Imagine document scanning that speeds and simplifies your business processes. The Alaris S2050/S2070 scanners are built to let anyone capture information anywhere, with superior image quality and data accuracy. It's the perfect solution when you need to get information into your business fast.

## Faster, easier scanning leaves more time for business

The S2050/S2070 scanners enhance your productivity by handling more of the work traditionally done by people, computers and mobile devices.

- Embedded Image Processing in the scanner delivers crisp, high-quality images without depending on your computer.

- Active Feed technology aligns leading edge of paper to avoid misfeeds and multifeeds, and Controlled Output Stacking places paper neatly in the output tray, so you spend less time arranging documents for scanning or dealing with messy output stacks. You can focus on what is important to your business.

Document and information handling you can trust

Ensure reliable data quality at the point of capture through a combined approach of hardware and software technologies.

- Intelligent Exception Processing handles immediate validation of forms so any missing information can be identified and fixed at the point of transaction.

- Intelligent Document Protection "listens" for a telltale crumpling sound and immediately stops the scanning process.

- Multifeed sensor technology is designed to detect when two or more documents are being fed into the scanner at the same time.

Capture that streamlines your business processes

Document capture integrates smoothly and conveniently into your normal workflow.

- Intelligent Barcode Reading produces the most accurate data extraction results and takes complexity out of the setup process.

- Convenient push and pull scanning options allow users to scan from business applications or send images directly to applications from the scanner.

- Cataloging in bundled productivity-enhancing software Alaris Info Input Express LE Software lets users search and find captured documents in a flash.

Easy to set up, easy to use

An intuitive color interface and predefined job setups simplify the lives of users and network administrators.

- Bundled Info Input Express LE uses OCR (Optical Character Recognition) to enable easy and automatic data extraction, helping drive digital transformation.

- Connect to various applications such as **Box**, **Dropbox**, **Salesforce**, **OneDrive**, **Google Drive**, **SharePoint**, **SharePoint Online**, and more.

- Easy, icon-based color interface and one-button functionality make it easy to get the right information to the right place.

Information capture that evolves with your business

The S2050/S2070 scanners are designed to fit seamlessly into your business environment and adapt as your needs change.

- Ideal for cloud and terminal-based solutions because embedded image processing does not require a connection to a high-powered computer.

- **Kodak** Asset Management Software helps administrators monitor and manage scanners over the network.

- As your organization evolves, a range of service plans will help you manage your scanner fleet in the most efficient, cost-effective way.

1. With scan speeds up to 70 ppm duplex, this scanner is ideal for shared workgroups.

2. Handles up to 80 sheets (20 lb./80g/m2) of paper and also small documents such as ID cards, embossed hard cards, business cards, and insurance cards.

3. The control panel screen is easy to read, with custom activity names and color icons that make scanning tasks quick and easy to select.

4. Reduce host processing requirements with embedded image processing.

5. **Active Feed technology** takes the worry out of document prep for small batches.

6. **Controlled Stacking** keeps documents neatly organized at output so you can focus on your customer.

7. **Integrated Flatbed Scanners** available for specialty media for exception processing.

8. **Perfect Page technology** optimizes image quality dynamically on every page for more accurate information extraction.

9. Compact yet robust scanner fits desktops in modern office environments.

Alaris IN2 Ecosystem

Today's complex data environment needs an integrated approach to information capture. The IN2 Ecosystem delivers the best information capture solution for your business with industry-leading scanners, software and services delivered by a network of trusted partners.

IN2 Ecosystem gives you the:

- **Right Fit**: Solutions to fit your business goals, environment, and budget

- **Right Experience**: Solutions that simplify your work—from acquisition through operation and ownership

- **Right Results**: Solutions that deliver superior business value through fast, accurate, reliable information capture

The Alaris S2000 Scanner Series gets information into your business processes fast.

Alaris S2050/S2070 Scanners

Features	
Throughput Speeds*	**S2050**: Black-and-white/grayscale/color: up to 50 ppm/100 ipm at 200 and 300 dpi
	S2070: Black-and-white/grayscale/color: up to 70 ppm/140 ipm at 200 and 300 dpi
Recommended Daily Volume	**S2050**: Up to 5,000 pages per day
	S2070: Up to 7,000 pages per day
Feeder Capacity	Up to 80 sheets of 80 g/m2 (20 lb.) paper
	Handles small documents such as A8, ID cards, embossed hard cards, and insurance cards.
Power Consumption	Off: 0.5 watts; Standby/Sleep mode/Network Standby: <3.0 watts; Running mode: <36 watts
Electrical Requirements	100-240 V (International); 50-60
Environmental Factors	EPEAT Registered ENERGY STAR Qualified Operating Temperature: 10-35° C (50-95° F) Operating Humidity: 15% to 80% RH
Dimensions	Weight: 3.3 kg (7.2 lbs.) Depth:204 mm (8.0 in.), not including input tray and output tray Width: 312 mm (12.3 in.) Height:182.5 mm (7.2 in.), not including input tray Depth with Input Tray 269 mm (10.6 in.)
	Height with Input Tray 231.6 mm (9.1 in.)
Supported Operating Systems	WINDOWS 7 SP1(32-bit and 64-bit), WINDOWS 8 (32-bit and 64-bit), WINDOWS 8.1 (32-bit and 64-bit), WINDOWS 10(32-bit and 64-bit), WINDOWS Server 2008 x64 Editions, WINDOWS Server 2012 x64 Editions, LINUX UBUNTU ** (FUTURE AVAILABILITY OCTOBER 17). Citrix Certified.
Software Support	Fully supported by Alaris Info Input Express Limited Edition (through web download); KODAK Info Input Solution, KODAK Capture Pro Software, and KODAK Asset Management Software (WINDOWS only).
	WINDOWS Bundled software: TWAIN, ISIS, WIA Drivers.
Accessories (optional)	Alaris Carrier Sleeves (5 pack); Alaris S2000 Series Feed Roller kit; Alaris S2000 Series Stacking Deflector accessory;
	KODAK A3 Size Flatbed.

For a complete list of specs	**Learn More**

*Throughput speeds may vary depending on your choice of driver, application software, operating system, and selected image processing features.
**Info Input Express LE application is not supported on these operating systems.
